Hey Boss

just to let you know I have completed proof reading the first 40 review forms. I have put them in 2 folders on the desk outside my office. They are clearly marked and ready for you to read if you require them. In folder 1 is also the summary of results and pie charts

I am working on the summary document in between everything else going on at the moment. Work in progress,. You also mentioned that you would like me to review the documents for certain sub categories (ie revenge killing, number of homosexual offenders ?, paedophiles etc). You were going to send me an email as to what you require ?.

As for the 3 Taradale matters - I have spoken to DI Insp Chris Olen at UHT who tells me that they are presently re-opening those matters for re-investigation under a new SF ?? Essentially he estimates there is about 50 boxes of files (Taradale) and would prefer we go to them as they are in the process of sorting those boxes themselves. So to be honest my suspicions about the timeliness of the Taradale matters now being reviewed grows ?

But anyway if your around the SPC and have a spare 10mins is it possible we can meet to discuss Parrabell and the Taradale review. I have a plan to send Cameron out to UHT at Parramatta now to review these matters pending his transfer to sex crimes on 9/4/17. However there is some issues with this.

Besides I like to give you my opinion on the ACON dossiers. I have spoken to Dr Dalton who is also essentially of the same opinion. He also enlightened me on some conversations he;s had with ACON etc over their dossiers.

Thats if you have time of course. If not I will send you an email at some point.

Middo
