Ahaha, I'll start reading and if I get fed up with it, I might sing out for a bit of an insight from you.

No dramas mate, you can only do what you can.  
 I can save you time and tell you about the cases but that takes away all the fun.

Thanks heaps for that.

I'll start sifting through the Taradale stuff on eagle.i - I am only at Surry for another few weeks so I don't know how much work I am going to be able to do on it anyway, it was just to get the ball rolling.

Completely understand in regards to Neiwand. Up until this week, we weren't even touching any of these cases until Mr Willing decided otherwise.

Thanks again,

Cam

With OP Taradale the info is there but poorly or not uploaded, created and or categorised, so if you need to look at specific something specific you need to search for it and even then you may need to refer to the hard copy.

I'll add you two onto Taradale and if you need any other info just let me know.

Obviously as S/F Neiwand is an ongoing investigation what we have obtained isn't for release yet. I'm happy to fill you in but we don't want the information put out there just as yet.

Hey mate,

Thanks for the email.

Yeah, I had a chat to Mr Middleton this morning about it all.

Is the majority of the information contained on eagle.i? Would it maybe be just as easy for me to have a flick through that to get the ball rolling from Parrabell's end?

If it is ok, would you be able to whack myself and Mr Middleton [REDACTED] onto eagle.i as read only?

Any dramas, let me know.

Thanks,

Cam.

Hey mate

Not sure if Mr Middleton has informed you, our bosses here had a scrum down about the request sent through.

In a nutshell you can come review the material but this will need to be done from HQ as we are still working through all the archived boxes.

Cam

As discussed please start making arrangements to gain access to the 3 matters encompassing Taradale (Mittaini, Russell, Warren) with the UHT. I believe that these matters should be housed at UHT ? given that they are unsolved and previously 'active'. If you meet resistance please let me know as its my understanding that DSupt Willing has now requested that we review these matters.

Before I determine the amount of resources to commit to these reviews and/or timeframes I would like to get an estimate of the volume of material we will be looking at. Either way the material will have to be transported to SH for review (unless its more suitable for us to access UHT at their location).

I think we will also need to examine SF Taradale files - can you check if UHT have them ? if not we need to find where it is archived ? or we may be able to access them via e@glei (as I think Taradale was around 2004/2005 so e@glei should have been utilised ) alternatively we may just be able to look at Taradales files if they extensively cover the original documentation ?

Can you please advise me as to the following

- \* Where the 3 matters are currently located - UHT, archives etc ?
- \* Volume of material for each matter ?
- \* Taradale reinvestigation ? where, volume of material ?

Once I know what we are in for I can decide on resources and advise Mr Crandell of a timeframe.

Regards
