Danny,

Thanks for that. What CC details sounds a lot like the conversation we had yesterday. I think that if the Business Rules of the FPIU endeavour to capture that we are on solid ground.

That said, the Bias Crimes Team will need to be engaged this week for the purpose of having them integrated into the FPIU. I'll speak with the acting commander of Op Programs today to have that conversation started. A transition plan will be detailed and negotiated with both you and Adam to get the BC team working with you.

Kyle

Cc: Andrew, can you please call me this morning. Ideally I'd like to have a teleconference with you, Shobha and Geoff Steer. Could you put that together for me before say 1100 if your diary allows.

Mr Stewart

It appears there is now some flexibility with the MHIT future.

Forwarded for you information & further discussions.

Regards

Danny Doherty
 Detective Superintendent
 Operations Manager
 Central Metropolitan Region

Following on from the conversation today re MHIT.

The CoP in the early stages said Bias Crimes fits with FPU and MHIT may also play a role. The MHIT role and its commitment could be determined by yourselves how that bets fits.

Bias crime is a no brainer, but given the diverse work and support the MHIT give to front line police,

maybe that's a different story.

[REDACTED]

Given the Commissioners flexible approach perhaps the MHIT could be a consultant initially then if the need arises, someone or some people from MHIT fit in with FPU permanently.

There wasn't a mandate to move MHIT immediately or wholly, but perhaps your meeting today you require a person from MHIT immediately.

Anyway, after todays call I had time to think, these are my thoughts not the CoPs. Just want to convey the flexibility of it all.

Chris
