statement of the 6 January, 1990. That being the car used by the person Ian Stuart JONES, whilst he was living with me at [redacted] Upfold Street Bathurst between March and June of 1989.

5. As I have previously stated, Ian sold this vehicle about 10 days after the incident where he disappeared. At this time I recall Ian telling me one night, at the house (in Upfold Street), that a mate of his (whom he did not nominate) had smashed the car and that it was no longer driveable. By the way Ian described the car, I was under the impression that it had been totally wrecked.

6. I was also shown by Detective PLOTECKI a dark blue men's hipster style jacket. I recognise this jacket as being similar to, if not the same jacket, as the person Ian JONES owned whilst he resided with me at Upfold Street, Bathurst. This jacket I recall as it was an item of clothing that Ian always wore. He usually kept this jacket by the back door of the house in Upfold Street, on a row of hooks by this door. I cannot recall however if Ian was wearing or took this jacket with him on the morning of the 5 May, 1989, when he left the house for about 24 hours, after fighting with his girlfriend Kerrie STANTON. I also do not recall if JONES was wearing this jacket upon his return to the house on the 6 May, 1989.

7. I was also shown by Detective PLOTECKI one St. George Building Society, Christmas Club passbook, in
