Dear Sir,

Inquest into the death of Graham William PAYNTER who died on 13 10 89 at Tathra. My telephone conversation with your office on 19 4 90.

Mr. Paynter's body was found at the foot of a cliff near to the spot marked with a red cross on the enclosed plan.

It may be that at a Coronial hearing I will be making recommendations regarding fencing of the cliff edge. In that regard I have hi-lighted what appears to be the cliff edge of which part, or all, that recommendation may be made.

Could you please advise who has ownership, control etc of that relevant cliff edge.

Thank you in anticipation.

Yours faithfully,

(I. Grosse)
Coroner.
