

# Tathra cliff top is to be fenced off

THE Bega Valley Shire Council resolved this week to fence the cliff top at Tathra.

The decision came following a fatality last year when a man fell from the cliff top.

There had been two other falls causing serious injury in the past couple of years.

The Shire Engineer, Mr Terry Campbell, told Tuesday's Council meeting that a letter had been received from one of the people injured in a fall asking Council to consider erecting safety fencing in the area.

Council's insurance agents had also suggested some action be taken.

Mr Campbell said there were two areas where fencing would be appropriate - the cliff top immediately adjacent to the seat north of Cliff Place and the cliff top at the western end of Auckland Street reserve.

In addition, an extension of the existing handrail beside the concrete steps leading from Cliff Place to the beach should also be provided.

This would restrict direct access to the cliff top from the stairway.

He recommended a post and rail fence as the most aesthetic for the area.

Council resolved to provide funds to fence the cliff top and provide the hand rail this financial year and that the Tathra Beach Reserve committee be asked for a contribution to the cost.

• Donna O'Meara, who is interested in a career in the Navy as a physical fitness trainer, discusses her career options with defence force careers adviser, Chief Petty Officer Norm Sweeney.

## Service careers

STUDENTS interested in joining the defence force discussed their plans with careers advisers who visited the school on Tuesday.

The visit was part of a school follow-up program conducted by Defence Force Careers.

Career advisers have visited the school twice already this year to give general information to students about job options within the forces.

However, Chief Petty Officer Norm Sweeney said their visit to the school was to talk to

those interested on an individual basis.

"This is to give them a further idea of what is involved and answer any further questions or queries which they may have," he said.
