- 100 Pipers Whisky bottle
 - Grey Wallet
 - Metal Tape Dispenser
 - Wheel of Tape Dispenser
- RESULT: W1 and W2 on top centre near brand label on metal tape.
Ashworth identified as elimination..

Can you confirm this as the tape dispenser is the murder weapon and Ashworth was a suspect in 1991. The tape dispenser was also washed or wiped down.

There appears to be a possible error as the same bottle of whisky is in this case number and 166651. There is no label on tape dispenser however there is a logo. (there is a lable on the whisky bottle and just checking if mixed up result.) The tape dispenser is grey if this helps with the photos.

No mention of tape dispenser being murder weapon & ASHWORTH is only listed as elimination in our records. Scene photos N166651 shows tape dispenser in sink, no mention of being washed down. Tape dispenser has "bear" logo on side, and appears to be grey, although hard to tell with black and white photos.

Photos of whisky bottle on bench at scene, but only shows part of label, appears to be 100 Pipers brand. Appears whisky bottle examiend at scene and also taken as exhibit for further treatment???

Case N381775 – (Index number 0600190)

FR Result – No prints found
Your Exhibit number D212009 (could I get a copy) (this exhibit number does not appear on our archived exhibit book schedule, is possibly the Harbourside LAC exhibit No??? We do not have a copy.)

- Metal Tape Dispenser
 - Wheel of Tape Dispenser
- RESULT: Nil prints found.
