The deceased William James DUTFIELD born [REDACTED] resided at [REDACTED] Spit Road Mosman. On the 19/11/1991 the last person to see the deceased alive was Arthur ASHWORTH. At 11.03am Arthur ASHWORTH located the deceased.

At the crime scene there was a tissue with blood on it located and the blood was not that of the victim.

Arthur ASHWORTH died in 2006. On the 12/09/2010 police took a DNA sample from [REDACTED] 183 the nephew of Arthur ASHWORTH (nearest living relative). Testing at DAL has indicated that the blood on the tissue has the same 'Y' profile as that of [REDACTED] 183

On the 19/11/2010 police obtained a 2003 personal diary (D897224 item 1) and passport (D897224 item 2) of Arthur ASHWORTH from family with a view to obtaining a DNA sample of Arthur ASHWORTH from those documents
