Accommodations Officer,
Dept of Housing:

Re: Samantha RAYE

I believe Samantha urgently requires priority housing as in the last 6 months she has been the victim of numerous psychological + physical assaults requiring treatment at the surgery. These assaults relate to her current terrible living situation and to the public's perception of her as "abnormal" even though Samantha was born with the condition of hermaphroditism which presents as ambiguous gender characteristics.

Both the assaults and strong standing prejudice have made Samantha suicidal and depressed, and I feel a continuation of her current living situation will increase the risk of her committing suicide.

On these grounds, I would be grateful if Samantha could be placed in housing as a matter of medical urgency.

Yours sincerely,

DR. P.J. STEINHEUER
(MB, BS)
