23rd. June, 1977.

Senior Detective, Parry,
 Manly Police Station,
MANLY N.S.W. 2095.

Dear Sir,

Re: the late Paul RATH of
[REDACTED] Pittwater Road, MANLY N.S.W. 2195.

I have been treating Mr. Rath since January, 1971 for a schizophrenic disorder and long before that he was a patient of Dr. E. J. A. Nuffield for the same condition.

He had ups and downs in his mood and condition but over the last several months he was fairly well and when last seen on 1st June, 1977, he appeared in quite good spirits and gave no special indication of any current suicidal tendencies. He has been on a moderate amount of tranquillizers as follows:
 HALOPERIDOL 1.5mg. 3 times per day and
 MELLERIL 25mg. 3 times per day.

Yours sincerely,

O. Reichard
CONSULTANT PSYCHIATRIST.
