ISSUE :

Termination report CAC Reference No 97-0440

S/F CORONE

BACKGROUND :

This investigation was referred to Crime Agencies by the Senior Deputy State Coroner Mr. Abernethy to investigate a number of issue raised by the family of Scott Stuart Miller. These inquiries were conducted by Detective Sergeant Desmond and a termination report was submitted by him on 28 March, 1998.

COMMENT :

Since the submission of the termination report, three issues have been raised:

1. Where is the brief located?
2. How is this investigation recorded?
3. Should we wait for a reply to the reward application?

In answer to the above issue, the brief of evidence is presently held by Detective Sergeant Desmond, Internal Affairs and will be returned to The Rocks Local Area Command who had carriage of the original investigation for filing. The investigation is recorded on TIMS and I am of the opinion that this investigation should be terminated at this time. Should any further information be forthcoming from the publication of a reward notice, any investigation relating to the new information should be carried out by the Local Area Command.

RECOMMENDATION:

Forwarded for information.
