

## Discussion with D/Sgt SCHIBECI re: exhibits / blood splatter

**File Number:** 6  
**Product Type:** TEXT DOCUMENTS:Investigators Note  
**Date of Note:** 3 Jun 2016  
**Brief Description:** About 8.30am on 03/06/2016 DSC CLANCY had a conversation with D/Sgt SCHIBECI. During the conversation DSC CLANCY provided an update on the forensic material that had been examined by Dr BRUCE.

In relation to the blood splatter, D/Sgt SCHIBECI asked if a recording on a video tape of the crime scene was available. A visual recording provides a clearer insight of the crime scene. DSC CLANCY needs to confirm if a video tape is available. The observations made by D/Sgt SCHIBECI were there was blood saturation on the bed in the bedroom with the projection of blood near the wardrobe. It was obvious due to the blood on the walls and floors within the unit that the deceased had moved about the one bedroom unit whilst being stabbed. At this time it is deemed not necessary for D/Sgt SCHIBECI to provide a statement in relation to the blood splatter as it does not assist in locating the offender(s). When required, D/Sgt SCHIBECI is willingly to make a statement about the blood splattering.

D/Sgt SCHIBECI is available in within the next few weeks for another review of exhibits. DSC CLANCY will contact him closer to the date to arrange a suitable time.
