Jeroen,  
 Is there any amendment to the  
 highlighted section (RECOMMENDATION)  
 that you want to make

Lyle,

As we keep missing each other, I would like to ask the following questions regarding the BRENNAN matter. These questions have come from viewing the crime scene photos. So you might be able to recall from viewing those photos, comparing them with your exhibit list.

- \* Where is the condom wrapper on right bedside table?
- \* Was glass on right bedside table fingerprinted?
- \* Were 'trojan & lifestyle' condom packaging, first hand and paper bag subjected to fingerprints/DNA?
- \* Can you advise me whether a print was identified on a champagne glass, if so, was it placed on the f/p database?

These are the only questions that I have regarding the BRENNAN matter. I know it was some time ago, but your assistance in this matter is greatly appreciated, thank you,

Hi Lyle,

Just a reminder re. the below case that I'm reviewing, you are busy and will be at court next week, but have you a chance to review your case file re. this matter? Michele is also involved in this matter re. analysis of exhibit question is, do all the exhibits still exist that were taken at the scene by you?

Thank you for your assistance,

Jeroen Huisman

 to contact me. ALL  
 exhibits he took control  
 of.

Currently reviewing the Kenneth BRENNAN homicide (11/6/95) which you attended on the 12/6/95 at Elizabeth Bay. We are in the process of reviewing all unsolved homicides to see if there is any possibility or avenues for a re-investigation. I believe you may have spoken to Sharon at the Sydney CSU about it as she's sending you all the material.

The main question I've got is, where are the exhibits at this point in time. In the crime scene photographs there are a lot of great items, but I cannot confirm if they have been forensically examined (I have a forensic report from DA that only states some items have been examined. Sorry to bother you with it at this point, is it possible for you to give me a ring?
