5. The user is prompted to record their name and a brief description of themselves. Once this has been done they are able to listen to the names and recorded descriptions of other users who are connected into the system at the same time. At the same time other users will be able to listen to his name and recorded description. If desired a user can record a message and send it to one of the other users. The recipient then has the option or replying to (or ignoring) the message. This process of listening to names and descriptions and passing messages continues. Once a user hangs up their name and description is no longer offered to other users. Within 24 hours the messages passed between users are removed. An archived copy of the recorded descriptions is kept for approximately three months.

6. On date 6th of October 2009, following a conversation with Detective Sergeant Bishop I was able to retrieve an audio file from our system. I retained that audio file. The recording was made at 2009-09-26 04:45. The caller's number was not logged along with the recording - the association was made only by the time and content. The last call into the system by the 0406 178518 was made at 04:44:58 (duration 23 minutes). We have a procedure which constantly archives off a copy of any introductory descriptions recorded into the system. We do not keep an archived copy of name recordings or any messages that he/she may send. I forwarded an email with the audio file attached to Detective Sergeant Bishop.

7. The content of the audio file was a follows. "Hi I'm a tall slim guy feeling really horny and kinky. I'm just in a park on the edge of the city in Sydney and um yeah I just ah I've got on a t shirt that's cut just below my nipples, some girlys panties and a pair of boots and I just left my pants and my shirt on the other side of the park and I'm walking through in the dark like a little sissy girl, I've got a really small little skinny cock I like, I want a man that want to treat me like a little girl show me what man cocks they've got compared to mine."

8. About 2.30pm on Thursday 13 May 2010, I spoke with Detective Sergeant Bishop at █████, ████████ Pyrmont. At that time I handed Detective Sergeant Bishop a DVD containing a copy of the audio file referred to above.
