He has a very good general knowledge of the park and the people who have frequented it over the years.

CHESHIRE was provided a colour A4 image of Moses KELLIE by NSW Police shortly after CAWSEY'S death.

In particular he could provide evidence into Bernard 'Mudman' TRIVES, interactions with Moses KELLIE and the sexual activity in the park.

Attached is a Map of Centennial Park with points of interest marked by Colin CHESHIRE, including:

- a. Area where camp was discovered under Snake Bank
- b. Areas of sexual activity
- c. South West Corner where CHESHIRE saw black homeless man
- d. Kensington Bridge
- e. Tennis Centre
