Meals Supplied?	Yes <input type="checkbox"/> / No <input checked="" type="checkbox"/>
Briefing Date/Time	N/A/ / hrs
Briefing Location	N/A
Training Location	N/A
Brief Description of Assistance Required (include specific tasks, information or activities that are being requested to be undertaken)	<p>BACKGROUND: At 5:56am on 26/09/2009, Anthony CAWSEY's body was located in Centennial Park on a path near Busby's Pond. Investigations have determined that Anthony CAWSEY was killed between 5:24am and 5:56am on 26/09/2009. CAWSEY died from a single stab wound to the chest. Strike Force Annand was formed by the Homicide Squad to investigate the murder of Anthony CAWSEY.</p> <p>Investigations established that CAWSEY engaged in sexual activities with both genders; and he had gone to Centennial Park seeking to engage in sexual activity with another male. Direct evidence of this comes from a voice message that CAWSEY left on Mediatel, a gay chat line service at 4:45am on 26/09/2009:</p> <p>"Hi I'm a tall slim guy feeling really horny and kinky. I'm just in a park on the edge of the city in Sydney and um yeah I've just ah I've got a t-shirt that's cut just below my nipples, some girlie's panties and a pair of boots and I just left my pants and my shirt on the other side of the park and I'm walking through in the dark like a little sissy girl, I've got a really</p>

small little skinny cock I like, I want a man that want to treat me like a little girl show me what man cocks they've got compared to mine." The message did not identify the park CAWSEY was attending.

Various lines of enquiry have been explored during the investigation into CAWSEY's murder including the murder being committed by a person known to CAWSEY; or gay chat line related, robbery related, gay hate crime related.

On the subject of gay hate activity, input has been sourced from Kim ORA, Forensic Psychologist on the typical characteristics of anti-homosexual violence with various literature being received. Furthermore, DSC Ben WHITEHOUSE has conducted reviewed all COPS events of Assault, Robbery & Homicide incidents between 12:01am 01/04/2009 & 11:59pm on 30/11/2009, for the LACs of Botany Bay, Eastern Beaches, Eastern Suburbs, Redfern, Rose Bay, Surry Hills. A targetted key-word search was also made looking for events with similarity to the circumstances of CAWSEY's murder. The review also looked into whether any person/s were committing bias or gay hate or transgender/transsexual hate crimes. This review found no such evidence for the 6 month period. Information sourced on the internet and from park rangers and security guards is that Centennial Park (mainly the areas near Lachlan Swamp) is a beat used by men for homosexual activity.

For your information, Investigators identified a person of interest for CAWSEY's murder, that being Moses KELLIE (DOB: [REDACTED] 1989) a homeless man who resided in Centennial Park. KELLIE was charged and convicted of other personal violence offences against [REDACTED] 1359 [REDACTED] 1359 and [REDACTED] 1360 [REDACTED] 1360 in the period following the murder in areas adjacent to Centennial Park. Following a review and legal advising, KELLIE was charged with murder in October 2015. However, in August 2016, the DPP elected to no bill the matter. Consequently, a Coroner's Brief of Evidence is now being prepared. KELLIE remains the only person of interest for CAWSEY's murder. It is the opinion of Investigators that CAWSEY may have approached KELLIE seeking to engage in homosexual acts when the murder was committed. This opinion is supported by a version given by KELLIE during an electronic interview. It is also noted, for your information, that KELLIE has been diagnosed with schizophrenia and suffers from auditory hallucinations.

REQUEST:

As part of the Coronial investigation, we require further information on the use of Centennial Park as a gay beat and whether there exists any evidence of gay hate offending within the Centennial Park area during the period 01/01/2008 to 31/12/2010. An extensive bias crimes assessment is NOT considered necessary for this investigation as certain information has already been collated. However, we are seeking to identify any other information that may be relevant for the period specified.

A coronial brief of evidence is in the process of being prepared and will be served in January 2017.

Thank you for your assistance. Further information is available if required.
