

Review of Mobil Service Station CCTV

File Number: 925
Product Type: TEXT DOCUMENTS:Investigators Note
Date of Note: 14 Dec 2015
Brief Description: CCTV footage from the Mobil Service Station, 110 Anzac Parade, Kensington was obtained for the period 00:00, 26/09/2009 to 07:00, 26/09/2009. This footage was reviewed by DSC LEWIN with no persons sighted.

The CCTV footage was contained on one VHS tape and registered in the MTR as 0608/0005.

A request was made to convert this footage from VHS to DVD to enable service of the footage with the brief of evidence. A job request was submitted to the Forensic Imaging Section - AJ00417310 relates. The DVD copies of this CCTV footage have been secured with the VHS tape in MTR 0608/0005.

On 14/12/2015, DSC STAPLES conducted a review of the CCTV footage. The footage is of extremely poor quality and it alternates as fast speed between internal camera views and external camera views. The footage is so poor that no persons can be identified from the CCTV and the camera angle appears as though it would not fully capture the alleged path of travel of Moses KELLIE (as per his version).
