

NSW Police
INVESTIGATOR'S NOTE

Investigation: S/F NEIWAND
Title of Note: Analysis of Craig ELLIS walkthrough

Narrative:

Walkthrough between S/Cst DAGG and Craig ELLIS 2/8/2001 11:38am

1. Start: Kenneth Street Bondi

2001 Video Walk Through**Present day**

Spot where ELLIS points out
 WARREN's car located

Video Summary

Ellis states he found WARREN's car in this position, one or two days after he went missing. He and his ex-partner found it, it was locked, there were McDonalds wrappers, and his clothes on back seat. Interior did not look ransacked. ELLIS states while they were looking at the car a man came out from unit blocks next to park saying the car was parked over his driveway. Condition of the car was typical (messy).

Said him and Paul once they saw the car went down the path because they knew the reason the car was there is that WARREN would have gone for a walk in the park.

2. Path to Marks Park (View from Kenneth Street)

2001 Video Walk Through

Present Day

Video Summary

ELLIS states him and Paul walked down this path (Now there are two paths, one which goes to Marks Park and the toilet block and the other which goes to the coastal walk, they walked down the path leading to the coastal walk).

3. Path to the coastal walk

2001 Video Walk Through

Present Day

Video Summary

Once ELLIS and SAUCIS got down the stairs they walked along the coastal path to the north then walked to the south along the path.

4. Path down to the bottom of the cliffs

2001 Video Walk Through

Present Day

Video Summary

ELLIS came down another path to see if he could see anything down the bottom of the cliffs, Paul SAUCIS stayed on the coastal path. ELLIS states (about finding WARREN's keys) "They were in a lip, up the top, at the top of one of the shelves". Indicates here

ELLIS describing how he reached the keys, and the height the keys were compared with his body

Video Summary

ELLIS states "...so there was no way I can see that the keys would've been washed up there because they were several feet, I mean I sort of reached out and was able to pick them up from this sort of level when I was standing on the ground so I doubt very much they would've been washed up, they've either fallen in there or they've been put there".

5. ELLIS finds keys

ELLIS indicates possible locations on the rocks where he found the keys

Video Summary

ELLIS states he doesn't know exactly where the keys were, "could've been here, here or down there but within 30 or 40 meters either side of where we're standing."

- DSC DAGG then asks ELLIS about where in Marks Park he met Ross WARREN.

ELLIS says he was just walking along the path (coastal walk), they established eye contact then started talking to each other. WARREN ended up going back to ELLIS's place, they got in WARREN's car and went back to ELLIS's place. They met around Easter at night time, around 9pm-12am. They had a boyfriend/boyfriend relationship for around three months then became good friends. ELLIS says he recalls WARREN telling him he'd come down to Marks Park on two or three occasions in the 15 months he knew him to meet men. States WARREN was reasonably conservative, but may have sex in a public place but probably wouldn't be his first option.

Map of route ELLIS took to locate WARREN's keys

1. WARREN's car located

2. Path ELLIS and SAUCIS walk down after finding car

3. When they come to the bottom they walk north along path, then south along path

4. ELLIS standing here with DSC DAGG pointing out where keys were found

5. ELLIS indicates he found the keys somewhere in this area

Map of Marks Park in 1989
