Exhibit/MPB No.**Brief Description**

On 28/11/2016 DSC TIERNEY spoke with Sergeant Chris ORNATOWSKI from FSG (FIRM, Identification Services branch) about mitochondrial DNA testing of Ross WARREN's mother's DNA to compare against all unidentified remains. DSC TIERNEY emailed Sgt ORNATOWSKI the details, he has authorised the request with FASS and arranged for this to be completed.

For information DSC TIERNEY provided Sgt ORNATOWSKI a list of unidentified remains which have a possibility of being Ross WARREN. This list was obtained from the Missing Persons Unit. It was decided that the DNA sample from WARREN's mother should be tested against the entire "unknown deceased index" anyway.

Attached is the email correspondence relating to this. DSC TIERNEY will await the results from Sgt ORNATOWSKI.
