2. The statement is true to the best of my knowledge and belief and I made it knowing that, if it is tendered in evidence, I shall be liable to prosecution if I have wilfully stated in it anything which I know to be false or do not believe to be true.
- 3 I am 28 years of age.
4. About 2.05am, on Saturday morning the 11th of January 1992, I was at home with a couple of the brothers when one young fella, a kuri, said, "There's a bloke in there." underpants were down around his ankles. There was a stick behind him, I thought it was stuck in his back at first, one end was propped up against a wall and coming down at about a 45 degree angle and the other end was in the middle of his back.

- 6. I checked his pulse, it was irregular and his breathing was labouring. I screamed out for someone to call for the Ambulance. I walked out and tried to keep other people from going in there.

- 7. The Ambulance came and started working on the bloke and I saw two young brothers about 20 old, in there with the Ambulance Officers. One of the brothers was holding a torch for the Officers and it appeared that there was communication between him and his cousin. I couldn't make out what was being said but it appeared that they knew something about the matter.

- 8. I've never seen the white bloke around before. I have seen the two young brothers around but, I don't know their names.
