Name:

Address:

Tel. No.:

Occupation: Aboriginal Health Liaison Officer

STATES:-

1. This statement made by me accurately sets out the evidence which I would be prepared, if necessary, to give in court as a witness. The statement is true to the best of my knowledge and belief and I make it knowing that, if it is tendered in evidence, I shall be liable to prosecution if I have wilfully stated anything which I know to be false or do not believe to be true.

2. I am 35 years of age.

3. On 15 June, 1994 I made a statement to Detective GABB about the movements of my nephew, NP128. In that statement I told Detective GABB that I was not sure when NP128 arrived in Moree. I told him it would have been around early to mid December, 1993.

4. On Sunday night (03.07.94) I was at home and my daughter was looking through my old books. She was looking at the books for the different birthdays of my nieces and nephews and I was helping her. I was looking through my diary from last year as I keep alot of these dates in this book so that I don't forget there birthdays. I came across the date NP128's mother came up to Moree. I must have written this in the book when they arrived by car from Quirindi. The date that I wrote this was on Sunday 21st November, 1993.

STATEMENT (continued) in the matter of: -

Name: 1324

5. When I saw that date, I remembered that Detective GABB had asked me to try and remember the exact date that NP128 had come to Moree. I then looked through my diary to see if I wrote in there when NP128 arrived. I then saw that on the date, Saturday 11 December, 1993 I had written the words, "NP128 came up on train today." I remember the day he arrived because I was still in bed as the train got in very early in the morning and he woke me up by knocking on the front door and windows. He arrived by himself and only had the one bag. He stayed with me for a while like I said in the other statement that I made.

6. I can remember that while NP128 was up here he got some work during the Cotton Chipping season. He was working for I325 I325 on and off for a couple of weeks, I think this was before Christmas.
