STATEMENT (continued) in matter of: Death of Bruest Allan HEAD.

McCANN. Cheryn Name: but no one enswered the door there either. (Surname in capitals) one flight of stairs and tried the doors there to see if anyone was home and we found the people home at both units. Ray Morphett asked these people if they had seen or heard Allan and one woman teld us that she didn't know him and the other woman teld us that she hadn't seen or heard him, and further she does not seehim very We all returned outside to the street and looked back up at the unit of Allan's and the light was still on and then we walked around to the back of the units and I noticed that there were no other lights on in Allen's unit. We looked at the clothes lines and Margaret noticed that some washing that was on the line or Saturday night was still there and it looked like Allan's clothing. The woman who lives directly beneath Allen teld us to ge and see the secretary of the units. We did this and the secretary told us that he had seen a light on every night in Allen's flat and that All had been heard in his flat on Wednesday night. Margaret gave him her telephone number and then we drove May Morphett to Strathfield Railway Station, and Margaret and I had semething to eat there and then we drove to another girls place while I picked up an essay. After we left there we drove to 1454 s place at Monterey, who is also a friend of Allans, but he wasn't home so Margaret wrote a note to 1454 asking him to contact her and pushed t note under the door. Margaret and I went home then and about 10.30pm | 1454 rang and spoke to Margaret. A short time after 1454 had rang Margaret, Sid the other firend of Allan's rang and speke to Margaret also. After this conversation Margaret and I went to bed, and Sid rang back again about midnight and told Margaret that it appeared that Allan was dead. this morning two handsome Detectives came to our house and told us that they thought Allan Head was dead and later this morning in company with Margaret I attended to the Ashfield Detective Office.

7. I am unable to assist the Police in their enquiries as to why some person or persons would want to harm or kill Allan Head as the shrt time that I know him he appeared to me to be a very quiet type of persons although lonely and he kept mainly to himself.

Apart from the persons I have already mentioned in this statement I am unable to assist any further as to any of Allan's other associations or friends.
