STATES:—

I reside at Unit [REDACTED] 49 Grosvenor Crescent, Summer Hill and have done so for the previous 3 years. The only thing I know about the deceased is that he lived in the unit directly above mine and used to pass the time of day with him on the stairway.

On Thursday the 17 th of June, 1976, my friend & I Galina Levendis went late night shopping in the city and we both came home to my unit arriving home about a time that I am not sure about. Shortly after our arrival home I heard foot steps similar to a person running, following this running I heard a heavy scream which I could not distinguish coming from above my unit. This screaming noise did not go on for very long at all.

Shortly after I had heard this I heard a door open from above and I heard knocking and I heard Don Humpheries speak, whose voice I knew, I could not distinguish what he said. I did not heard any reply. I then heard a door close.

About an hour later I heard a thump like somebody taking their boots off and dropping them, but I dont know if this came from above or not.
