[REDACTED] 58 Grosvenor Crescent, Summer Hill - Phone [REDACTED]

Social background:

Arrived in Australia on 21.5.72. Sister who was 2 years older had already arrived in 1970. Engin has an older sister in Turkey who is 4 years older. Both parents are deceased, Engin is single but had been living with a girlfriend called [REDACTED] 1457 prior to going to Turkey on holidays. He has a daughter from the relationship - [REDACTED] 1458 (7 years old) hasn't seen his daughter or girlfriend in 20 months. He explained that when he had gone to Turkey mid 1984 he had told his girlfriend he was going for a holiday. He returned after 45 days because Turkey wasn't as he imagined it would be. Instead of contacting his g/friend who was now living in Victoria he stayed in Sydney and while in Sydney he had been arrested for the Supply heroin.

22.4.86

4-pager begun. Discussed family background and employment. He seems to be very close to [REDACTED] 1451 and [REDACTED] 1452. In fact he stated that [REDACTED] 1452 was more like a father to him despite the fact that they are reasonably close in age. He showed considerable emotion when discussing his relationship with his girlfriend [REDACTED] 1457. He informed me they had been living together since 1975 until he went to Turkey in mid 1984. She still thinks he is in Turkey he is not going to make any attempt to contact her until he leaves gaol. He stated he was ashamed of being in gaol and did not want her to know where he was. I said to him that it was rather difficult for her to cope with the idea that he is still in Turkey and maybe some attempt at contact might at least reassure her of his well being. Engin explained that he did not know where she lived but would be able to contact her through her girlfriends of which she has many.

Personal:

Engin is a quite shy person who despite some difficulties with English adequately expresses himself his understanding of English appears to be OK also. In discussing his background and employment he appeared to be quite co-operative. However when the question of contact was raised he seemed reluctant, will investigate this on the next i/v.
